**Notice Regarding Technical Center Box Issue Fee Mailings**

The Office will begin mailing address labels with the PTOL-85, "Notice of Allowance and Issue Fee Due" for patent applications allowed in all Technology Centers. These address labels should be used to ensure proper routing of post-allowance correspondence. This directive supersedes the "Special Boxes for Patent Mail" instruction. Any Notice of Allowance and Issue Fee Due received without the accompanying address labels should continue to be addressed to Box Issue Fee.

**Public User Identification Passes USPTO Public Search Facilities**

The USPTO Public Search Services Division, responsible for the public search facilities in the Patent Search Room and the Trademark Search Library, is installing the new User Identification Pass system announced in the *Official Gazette* dated January 6, 1998. This system will replace the current passes used in the facilities with a new user number and a laminated identification badge. Later reissues of the badge are expected to add a photo of the user. Badges will be reissued every January upon validating and updating identification information. Information will be digitally stored so that validation and reissue will be speedy. There is a $15 fee for replacement of lost or forgotten badges; first issue and annual reissues are without fee. Badges must be visible at all times within the Patent Office building complex. The new user numbers will be used by the File Information Unit for public users requesting and checking out files.

Patrons using the Patent and Trademark Public Search Facilities as well as office areas must obtain a new badge before entering the Patent and Trademark Office complex. The process takes five to ten minutes for a first time issue. Effective immediately, equipment is available to issue the new badges for both patent and trademark public users at the Patent Search Room Reception Desk in Crystal Plaza 3, Lobby. The Patent Search Room is open Monday through Friday from 8 AM to 8 PM. The new User Passes will be required after August 15, 1998; old passes will not be valid after this date.

**Admissibility of Electronic Records in Interferences**

Pursuant to 37 CFR § 1.671, electronic records are admissible as evidence in interferences before the Board of Patent Appeals and Interferences to the same extent that electronic records are admissable under the Federal Rules of Evidence. The weight to be given any particular record necessarily must be determined on a case-by-case basis.

## Errata

"All reference to Patent No. 5,773,302 to David P. Matzinger, et al., of Menlo Park, Calif., for FLUID CONDUCTING TEST STRIP WITH TRANSPORT MEDIUM appearing in the Official Gazette of June 30, 1998, should be deleted since no patent was granted."

"All reference to Patent No. 5,777,440 to Joseph C. Borowiec, et al., of N.Y. For COMPACT ELECTRODELESS FLUORESCENT A-LINE LAMP appearing in the Official Gazette of July 7, 1998, should be deleted since no patent was granted."

## Status of Certification Services

On November 28, 1995, the Office published an Official Gazette Notice entitled "Temporary Suspension of At Cost Services for Orders for Certified Copies" (1180 OG 121) to advise practitioners and the public of delays in filling orders for certified copies of PTO documents. This is an update of actual days to mail for orders filled during the month of July 1998:

| Certified Product | Goal | Actual Calendar Days to Mail |
|---|---|---|
| Patent Application-As-Filed, Expedited | 7 | 6 |
| Patent Application-As-Filed, Regular | 17 | 17 |
| Patent Related File Wrapper | 25 | 48* |
| Patent Copy | 10 | 7 |
| Patent Assignments | 10 | 7 |
| Trademark Application-As-Filed, Expedited | 7 | 7 |
| Trademark Application-As-Filed, Regular | 17 | 11 |
| Trademark Related File Wrapper | 25 | 21 |
| Trademark Assignments | 10 | 9 |
| Trademark Registration, Expedited | 5 | 8 |
| Trademark Registration, Regular | 14 | 8 |

*** Includes turnaround times for files on official search and file reconstruction.**

The backlog of orders resulting from the relocation of the Office of Public Records in late March and early April has been worked down. During the month of July 1998, a total of 14,175 orders (26,945 copies) were filled and closed, or 5,651 orders (9,637 copies) more than the FY-98 planning number of 8,524 orders (17,308 copies) to be closed per month. The average turnaround times for products is returning to expected ranges as older orders are filled and closed.

**Due to varying availability of media, customers will not be advised when orders are not delivered within the published goal periods. However, customers will be advised if any unexpected delay in their order has been identified. Customers should use the above actual days to mail for each product as a guide as to when they can expect their orders. In determining expected delivery times, the day an order is received in the Office is calculated as "day zero." The next business day is "day one."**

Delivery of any specific copy will vary based on the availability of scanned images, microfilm products, and/or file accessibility. On June 10, 1997, the Office published an Official Gazette Notice entitled "Changes in Practice in Supplying Certified Copies and Filing Receipts" (1199 OG 39) which advised customers who place orders for certified copies of patent applications-as-filed not to request them until the official filing receipt is received; images and related bibliographic data are not available to Certification Division until the filing receipt is generated by the Office of Initial Patent Examination.

Customers are encouraged to fax orders for copies directly to Certification Division at (703) 308-9759 and to pay by PTO Deposit Account, MasterCard, Visa, or Discover. Information on the status of pending orders may be obtained by calling (703) 308-9726 or 1 (800) 972-6382 (outside the Washington, DC Metro area), or via E-mail: certdiv@uspto.gov.

## Reference Collections of U.S. Patents and Trademarks Available for Public Use in Patent and Trademark Depository Libraries

The following libraries, designated as Patent and Trademark Depository Libraries (PTDLs), receive patent and trademark information from the U.S. Patent and Trademark Office. Many PTDLs have on file patents issued since 1790, trademarks published since 1872, and select collections of foreign patents. All PTDLs receive both the patent and trademark sections of the *Official Gazette of the U.S. Patent and Trademark Office* and numerical sets of patents in a variety of formats. Patent and trademark search systems in the Cassis CD-ROM series are available at all PTDLs to increase access to that information. It is through the CD-ROM systems and other depository materials that preliminary patent and trademark searches may be conducted through the numerically arranged collections.

Each PTDL offers reference publications which outline and provide access to the patent and trademark classification systems, as well as other documents and publications which supplement the basic search tools. PTDLs provide technical staff assistance in using all materials.

All information is available for use by the public free of charge. However, there may be charges associated with the use of on-line systems, photocopying and related services.

Since there are variations in the scope of patent and trademark collections among the PTDLs, and their hours of service to the public vary, anyone contemplating use of these collections at a particular library is urged to contact that library in advance about its collections, services, and hours in order to avert possible inconvenience.

Partnership PTDLs provide enhanced and expanded services for which fees are charged. They offer on-line patent text and image searching, on-line trademark searching, and videoconferencing for examiner interviews and workshops. They accept disclosure documents on site, order file wrappers, assignment documents and certified copies for their customers, and host a variety of seminars aimed at specific audiences, including practitioners, paralegals, and independent inventors. Currently, partnerships are located at the Great Lakes Patent and Trademark Center (GLPTC) at the Detroit Public Library in Detroit, Michigan and the Sunnyvale Center for Innovation, Invention and Ideas (SCI$^3$) in Sunnyvale, California.

*A communication from the examiner should have been received in most applications filed prior to this date.

Patents will Expire as Follows:
(1) The term of any utility or plant patent that is in force on or results from an application filed before June 8, 1995 is the greater of the 20 year term provided in 35 U.S.C. 154(a)(2) or 17 years from grant subject to any terminal disclaimers. 35 U.S.C. 154(c)(1).
(2) All utility and plant patents granted on applications having an actual United States filing date on or after June 8, 1995 are granted for a term which begins on the date on which the patent is granted and ends 20 years from the date on which the application was filed in the United States. If the application contains a specific reference to an earlier application under 35 U.S.C. 120, 121 or 365(c), the patent term ends twenty years from that date on which the earliest application was filed. 35 U.S.C. 154(a)(2).
(3) All design patents are granted for a term of 14 years from the date of the grant.
However, the term of any patent may have been curtailed by disclaimer under the provisions of 35 U.S.C. 153, have lapsed due to failure to pay maintenance fees, or have been extended under the provisions of 35 U.S.C. 154, 155, or 156. Thus, if more reliable information is needed with respect to a particular patent, then the specific patent file should be reviewed to determine the actual date of patent expiration.

# MARKS PUBLISHED FOR OPPOSITION

The following marks are published in compliance with section 12(a) of the Trademark Act of 1946. Applications for the registration of marks in more than one class have been filed as provided in section 30 of said act as amended by Public Law 772, 87th Congress, approved Oct. 9, 1962, 76 Stat. 769. Opposition under section 13 may be filed within thirty days of the date of this publication. See rules 2.101 to 2.105.

A separate fee of two hundred dollars for opposing each mark in each class must accompany the opposition.

## SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).

### SECTION 1.—INTERNATIONAL CLASSIFICATION

The short titles associated below with the international class numbers are terms designed merely for quick identification and are not an official part of the international classification. The full names of international classes are given in section 6.1 of the trademark rules of practice.

The designation "U.S. Cl." appearing in this section refers to the U.S. class in effect prior to Sep. 1, 1973 rather than the international class which applies to applications filed on or after that date. For adoption of international classification see notice in the OFFICIAL GAZETTE of Jun. 26, 1973 (911 O.G. TM 210).
